[LinkedIn:hsen deeb](#)

Motivated and detail-oriented web developer with foundational skills in HTML, CSS, JavaScript, and Laravel. Passionate about building responsive, user-friendly websites and eager to gain real-world experience through a hands-on internship. Demonstrates problem-solving abilities, a strong work ethic, and a desire to learn from seasoned professionals. Excited to contribute to dynamic projects while growing technically and creatively within a collaborative team environment.

- **Restaurants online**
[a food ordering website inspired by toters app](#)
 - built with PHP and MySQL for the back-end and HTML, Bootstrap CSS and JavaScript for the front-end

2025 - Present

- **Tojjar (tojjar.online)**
[Tojjar is an online car dealership that provides a modern marketplace for buying and selling vehicles, offering detailed listings with photos, specifications, and availability updates. Built on a robust Laravel framework, it delivers a fast, secure, and user-friendly experience where buyers can easily search and filter cars while sellers can post ads and manage their inventory. Designed with a clean, responsive interface, Tojjar combines technical reliability with a premium brand identity to make car trading simple and trustworthy.](#)
